Re: 4,300' Sand, Reservoir A
4,400' Sand, Reservoir A
Miller 52 Sand, Reservoir A
4,150' Zone, Reservoir A
LOCKPORT FIELD, Calcasieu Parish, Louisiana

Dear Commissioner Asprodites:

Application is hereby made on behalf of **TRANSWORLD EXPLORATION AND PRODUCTION, INC.** for the calling of a public hearing after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters:

1. To dissolve the existing 4,300' Sand, Reservoir A, established by Office of Conservation Order No. 337-F, dated April 23, 1965; the 4,400' Sand, Reservoir A, established by Office of Conservation Order No. 337-G, dated April 23, 1965; and, the Miller 52 Sand, Reservoir A, established in the 337-H Series of Office of Conservation Orders, all in the Lockport Field, Calcasieu Parish, Louisiana, and simultaneously therewith, to create a single drilling and production unit for the exploration for and production of gas and condensate from the 4,150' Zone, Reservoir A, in the Lockport Field, Calcasieu Parish, Louisiana, such unit to be designated 4150 RA SUA, as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit with each tract sharing in unit production on a surface acreage basis of participation.

3. To designate Transworld Exploration and Production, Inc. as operator of the proposed unit.
4. To designate the Transworld Exploration and Production, Inc. – State Lease 16286 No. 1 Well as unit well for the proposed unit.
5. To provide that any future wells drilled to the 4,150' Zone, Reservoir A, in the Lockport Field, should be exempt from the spacing provisions of Statewide Order No. 29-E.
6. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
7. To consider such other matters as may be pertinent.

The 4,150' Zone, Reservoir A, in the Lockport Field, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 4,223 feet and 4,933 feet (electrical log measurements) (true vertical depths of 4,212 feet and 4,859 feet) in the Transworld Exploration & Production, Inc. – State Lease 16286 No. 1 Well, located in Section 9, Township 10 South, Range 9 West, Calcasieu Parish, Louisiana.

Pertinent data, including well logs, may be obtained AT THE COST OF THE REQUESTING PARTY from Joe B. Adams, 4520 Jamestown Avenue, Ste. 6, Baton Rouge, Louisiana 70808 (Telephone No. 225-929-6097).

Pursuant to the Revised Rules of Procedure, pre-application notice was given; however, no request for the conference was received. Therefore, the conference tentatively scheduled for Thursday, September 13, 2001 WILL NOT BE HELD.

Attached hereto and made a part hereof is the plat outlining the applicant's proposal and a list of the names and addresses of the Interested Owners, Interested Parties and Represented Parties to whom a copy of this application is being furnished. Pursuant to the Revised Rules of Procedure, such plat (being the same plat attached to the notice dated August 22, 2001) and list of parties are being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. The plat and/or list of parties will be provided to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.
